

Mise en valeur graphique du contrôle laitier

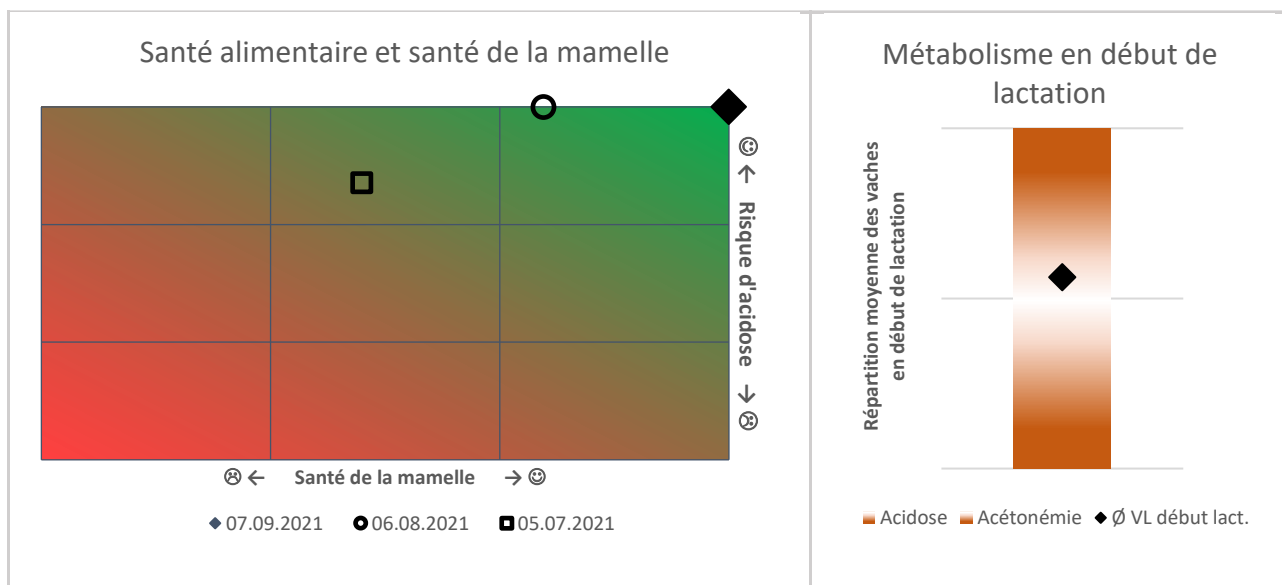

Date

Nom

Les principaux paramètres du troupeau

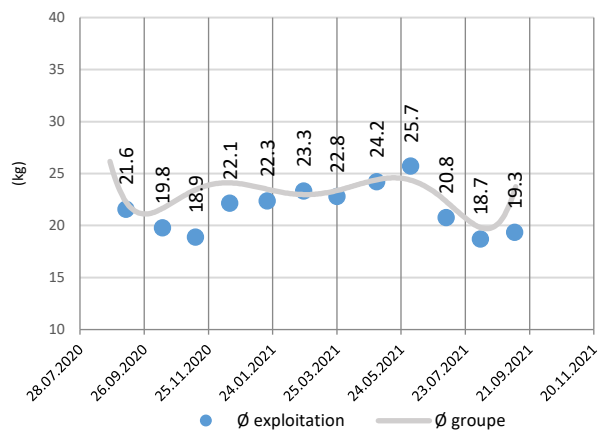

Les principaux indicateurs de santé du troupeau

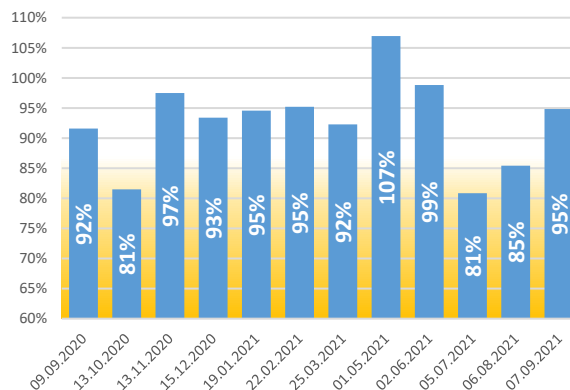

Les résultats détaillés du contrôle laitier

Lait moyen produit par vache

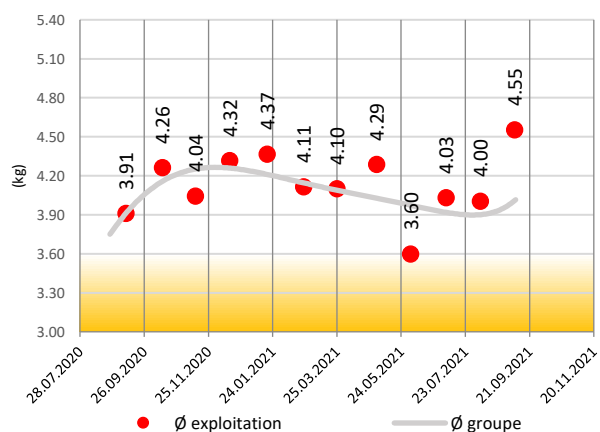

Production stable

Persistance 60-200 j. de lactation

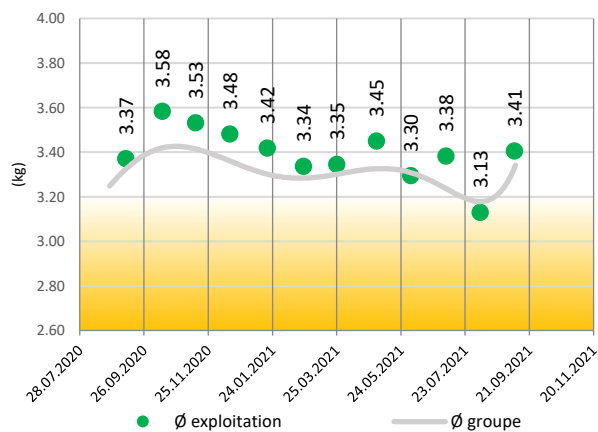

Bonne persistance

Taux moyen de matière grasse

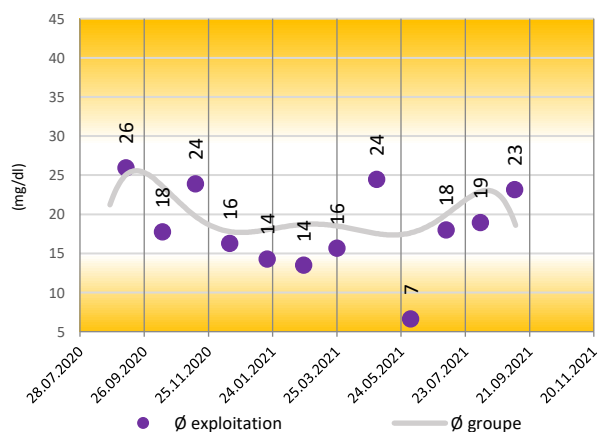

Taux correct

Taux moyen de protéine

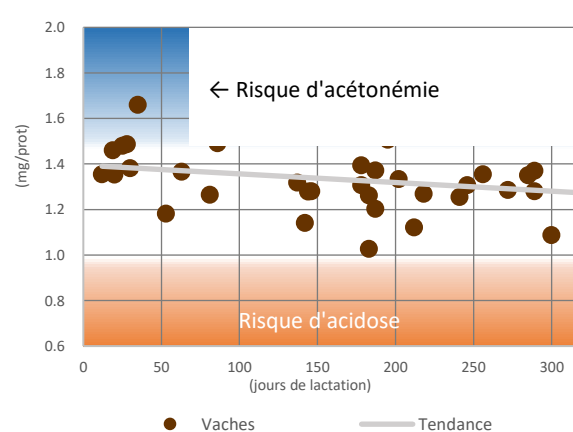

Taux correct

Taux moyen d'urée

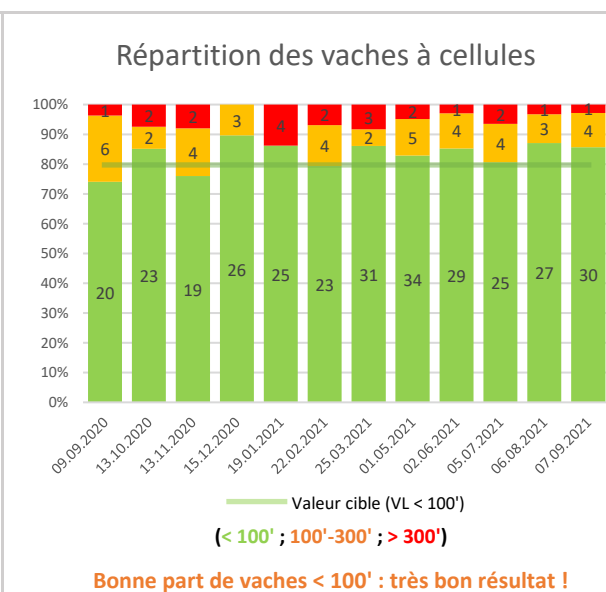

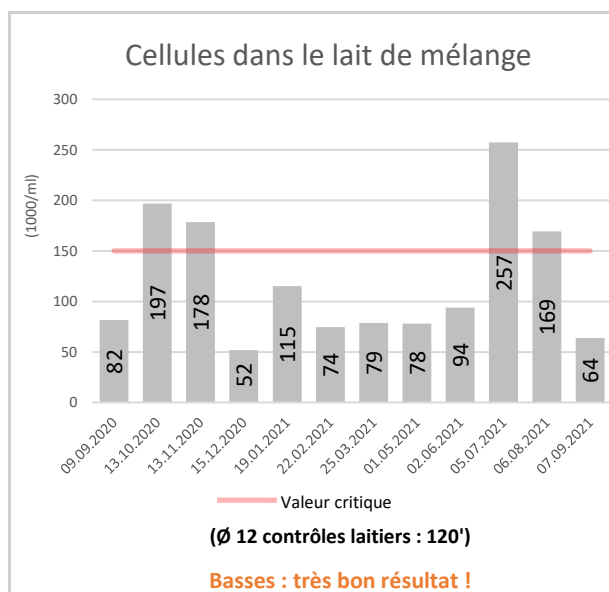

Taux correct

Rapport matière grasse/protéine

Zone d'acétonémie: Zagora, Bettina, Melide

La santé de la mamelle
